Il fascino del legno: comfort autentico e naturale.

Aspen reinterpreta il calore del legno nel suo aspetto più autentico e materico: un'estetica che richiama gli assiti grezzi e vissuti, capaci di trasmettere comfort e solidità agli spazi contemporanei. Disponibile in sei tonalità, Aspen si adatta a stili che vanno dal rustico contemporaneo al minimalismo nordico. I formati doga – dal 20x120 al 7,5x30 cm – ampliano le possibilità di posa ispirate al parquet. Il decoro Parke, che riproduce l'eleganza della posa a cassettone, introduce ritmo e tridimensionalità alle superfici.

Dove la tradizione incontra il Design Contemporaneo.

Una collezione antologica che attraversa i colori, le venature e le suggestioni materiche di dieci marmi senza tempo. Dai bianchi luminosi alle tonalità più calde e avvolgenti, fino all'intensità del nero, del rosso e del verde, ogni essenza esprime una personalità precisa e riconoscibile. A

caratterizzare l'intera collezione è il bordo burattato, che restituisce alla superficie posata un aspetto vissuto e autentico, evocando il fascino delle lavorazioni tradizionali della pietra. Heritage porta così nel progetto contemporaneo una bellezza volutamente imperfetta, capace di dialogare con atmosfere classiche e con le nuove sensibilità decorative.

A curated collection spanning a wide spectrum of colours, veins and tactile textures of 10 timeless marbles. From bright whites to warm enveloping shades, all the way to the depth of black, red, and green. Each stone expresses an individual, recognizable personality. The entire range features natural imperfections: the tombed edges add an authentic touch to any room, revealing the charm of traditional stone craftsmanship. Heritage brings imperfect beauty into contemporary design, effortlessly blending classic atmospheres with new decorative sensibilities.

Une collection anthologique qui traverse les couleurs, les veinages et les effets de matière de dix marbres intemporels, des blancs lumineux aux teintes les plus chaudes et enveloppantes, jusqu'à l'intensité du noir, du rouge et du vert. Chaque essence exprime une personnalité précise et reconnaissable. Toute la collection se distingue par son bord vielli, qui donne à la surface posée un aspect vécu et authentique, évoquant le charme du travail traditionnel de la pierre. Heritage apporte ainsi au projet contemporain une beauté volontairement imparfaite, capable de dialoguer avec des atmosphères classiques et de nouvelles sensibilités décoratives.

Toni della terra intramontabili.

La bellezza essenziale della pietra calcarea prende forma in quattro tonalità calde ispirate ai colori della terra, attraversate da una texture elegante dalla grana fine e uniforme, resa vibrante da minute inclusioni chiare. La grafica digitale con effetto rilievo valorizza ogni minimo dettaglio della superficie, creando una matericità profonda e autentica che coinvolge la vista e il tatto. Un look pietra raffinato ed equilibrato, capace di interpretare con naturalezza il linguaggio dell'interior design contemporaneo.

Un dialogo armonioso.

La bellezza essenziale della pietra calcarea si arricchisce delle tracce del tempo.

Oykos Fossil riprende le tonalità calde e naturali di Oykos, reinterpretandone l'estetica attraverso una grafica punteggiata da inclusioni fossili: dettagli irregolari che evocano la lenta stratificazione dei materiali minerali e conferiscono al look pietra un carattere unico. Animata da uno spirito autenticamente nordeuropeo, Oykos Fossil dialoga con naturalezza con la serie Oykos attraverso armoniosi accostamenti cromatici e variazioni materiche perfettamente coordinate.

The essential beauty of limestone is enriched by the traces of time. Oykos Fossil embraces the warm, natural tones of Oykos, reinterpreting its aesthetics through a graphic pattern dotted with fossil inclusions. These irregular details recall the slow stratification of mineral materials, giving the stone-look surface a unique character.

Animated by an authentically Northern European spirit, Oykos Fossil effortlessly dialogues with the Oykos series through harmonious colour combinations and perfectly coordinated tactile variations.

La beauté essentielle de la pierre calcaire s'enrichit des traces du temps. Oykos Fossil reprend les teintes chaudes et naturelles d'Oykos, en réinterprétant son esthétique à travers un graphisme piqué d'inclusions fossiles. Ces détails irréguliers évoquent la lente stratification des matières minérales et confèrent à l'effet pierre un caractère unique. Animée par un esprit authentiquement nord-européen, Oykos Fossil dialogue naturellement avec la série Oykos grâce à d'harmonieuses associations chromatiques et des variations de matières parfaitement coordonnées.
