

PECCHIOLI
FIRENZE

PECCHIOLI
FIRENZE

Cosa c'è di più concreto della terra,
di più limpido dell'acqua che la impasta,
di più forte del fuoco che la cuoce,
di più reale del colore che le dà bellezza?
Sono queste le materie che ogni giorno lavoriamo e
maneggiamo, elementi primari che processi produttivi,
certamente evoluti, ma in realtà simili
a sé stessi da migliaia di anni, nobilitano
e trasformano in manufatti di grande valore
estetico e sicuro valore funzionale.

MATERIA

What is firmer than the clay, clearer than the water
it is kneaded with, more powerful than the fire in its kiln,
more real than the colour that embellishes it?
These are the materials we work with and handle
on a daily basis, as both raw materials and in our
manufacturing processes. Of course they have been
developed, but have remained close to their millennia-old
roots, ennobled and transformed into products of great
aesthetic and clear functional value.

Non è possibile concepire
la nostra azienda in altro luogo
che non sia Firenze.
A questa città ci lega non solo la
nostra storia e non solo
la riconoscenza verso l'iniziatore
e padre nobile della nostra
avventura, ma soprattutto
la bellezza che ritroviamo in ogni
strada, in ogni palazzo,
in ogni immagine
che Firenze dà di sé.

ARTE

It is impossible to imagine
our company being based
anywhere but Florence.
We are bound to the city, not only
by our history and gratitude
to the founder and noble father
of our adventure, but also
by the beauty of every street,
every building and every image
that Florence offers up.

Forni manifattura Chini, 1906

L'evoluzione non si ferma,
 lo spirito umano guarda avanti,
 la tecnica trova traguardi
 impensabili, ma nel nostro lavoro
 la sapienza sta anche in gesti
 antichi, tutti manuali,
 e in pensieri aperti,
 sempre nuovi.
 Mani e mente, nella nostra
 azienda, lavorano ancora
 splendidamente insieme.

SAPIENZA

Development never ceases,
 the human spirit looks to the future
 and techniques move towards
 previously unimaginable goals.
 The skill in our work also lies
 in ancient gestures, all by hand,
 and in open-mindedness,
 always innovating.
 At our company, hands and
 minds continue to work together
 magnificently.

C'è un soffio, uno spirito
quasi magico che eleva
la materia e le dà un'anima:
l'arte, che abbiamo raccolto
dal grande uomo che fu
Galileo Chini e che, ancora oggi,
ci ispira e ci guida e trasforma
la nostra impresa in una
affascinante, coinvolgente
avventura umana.

PASSIONE

There is an energy, an almost
magic spirit that raises the
material and gives it life: Art.
To this day, we continue to draw
inspiration and guidance from the
great man who was Galileo Chini,
who transformed our business
into a fascinating, exciting
human adventure.

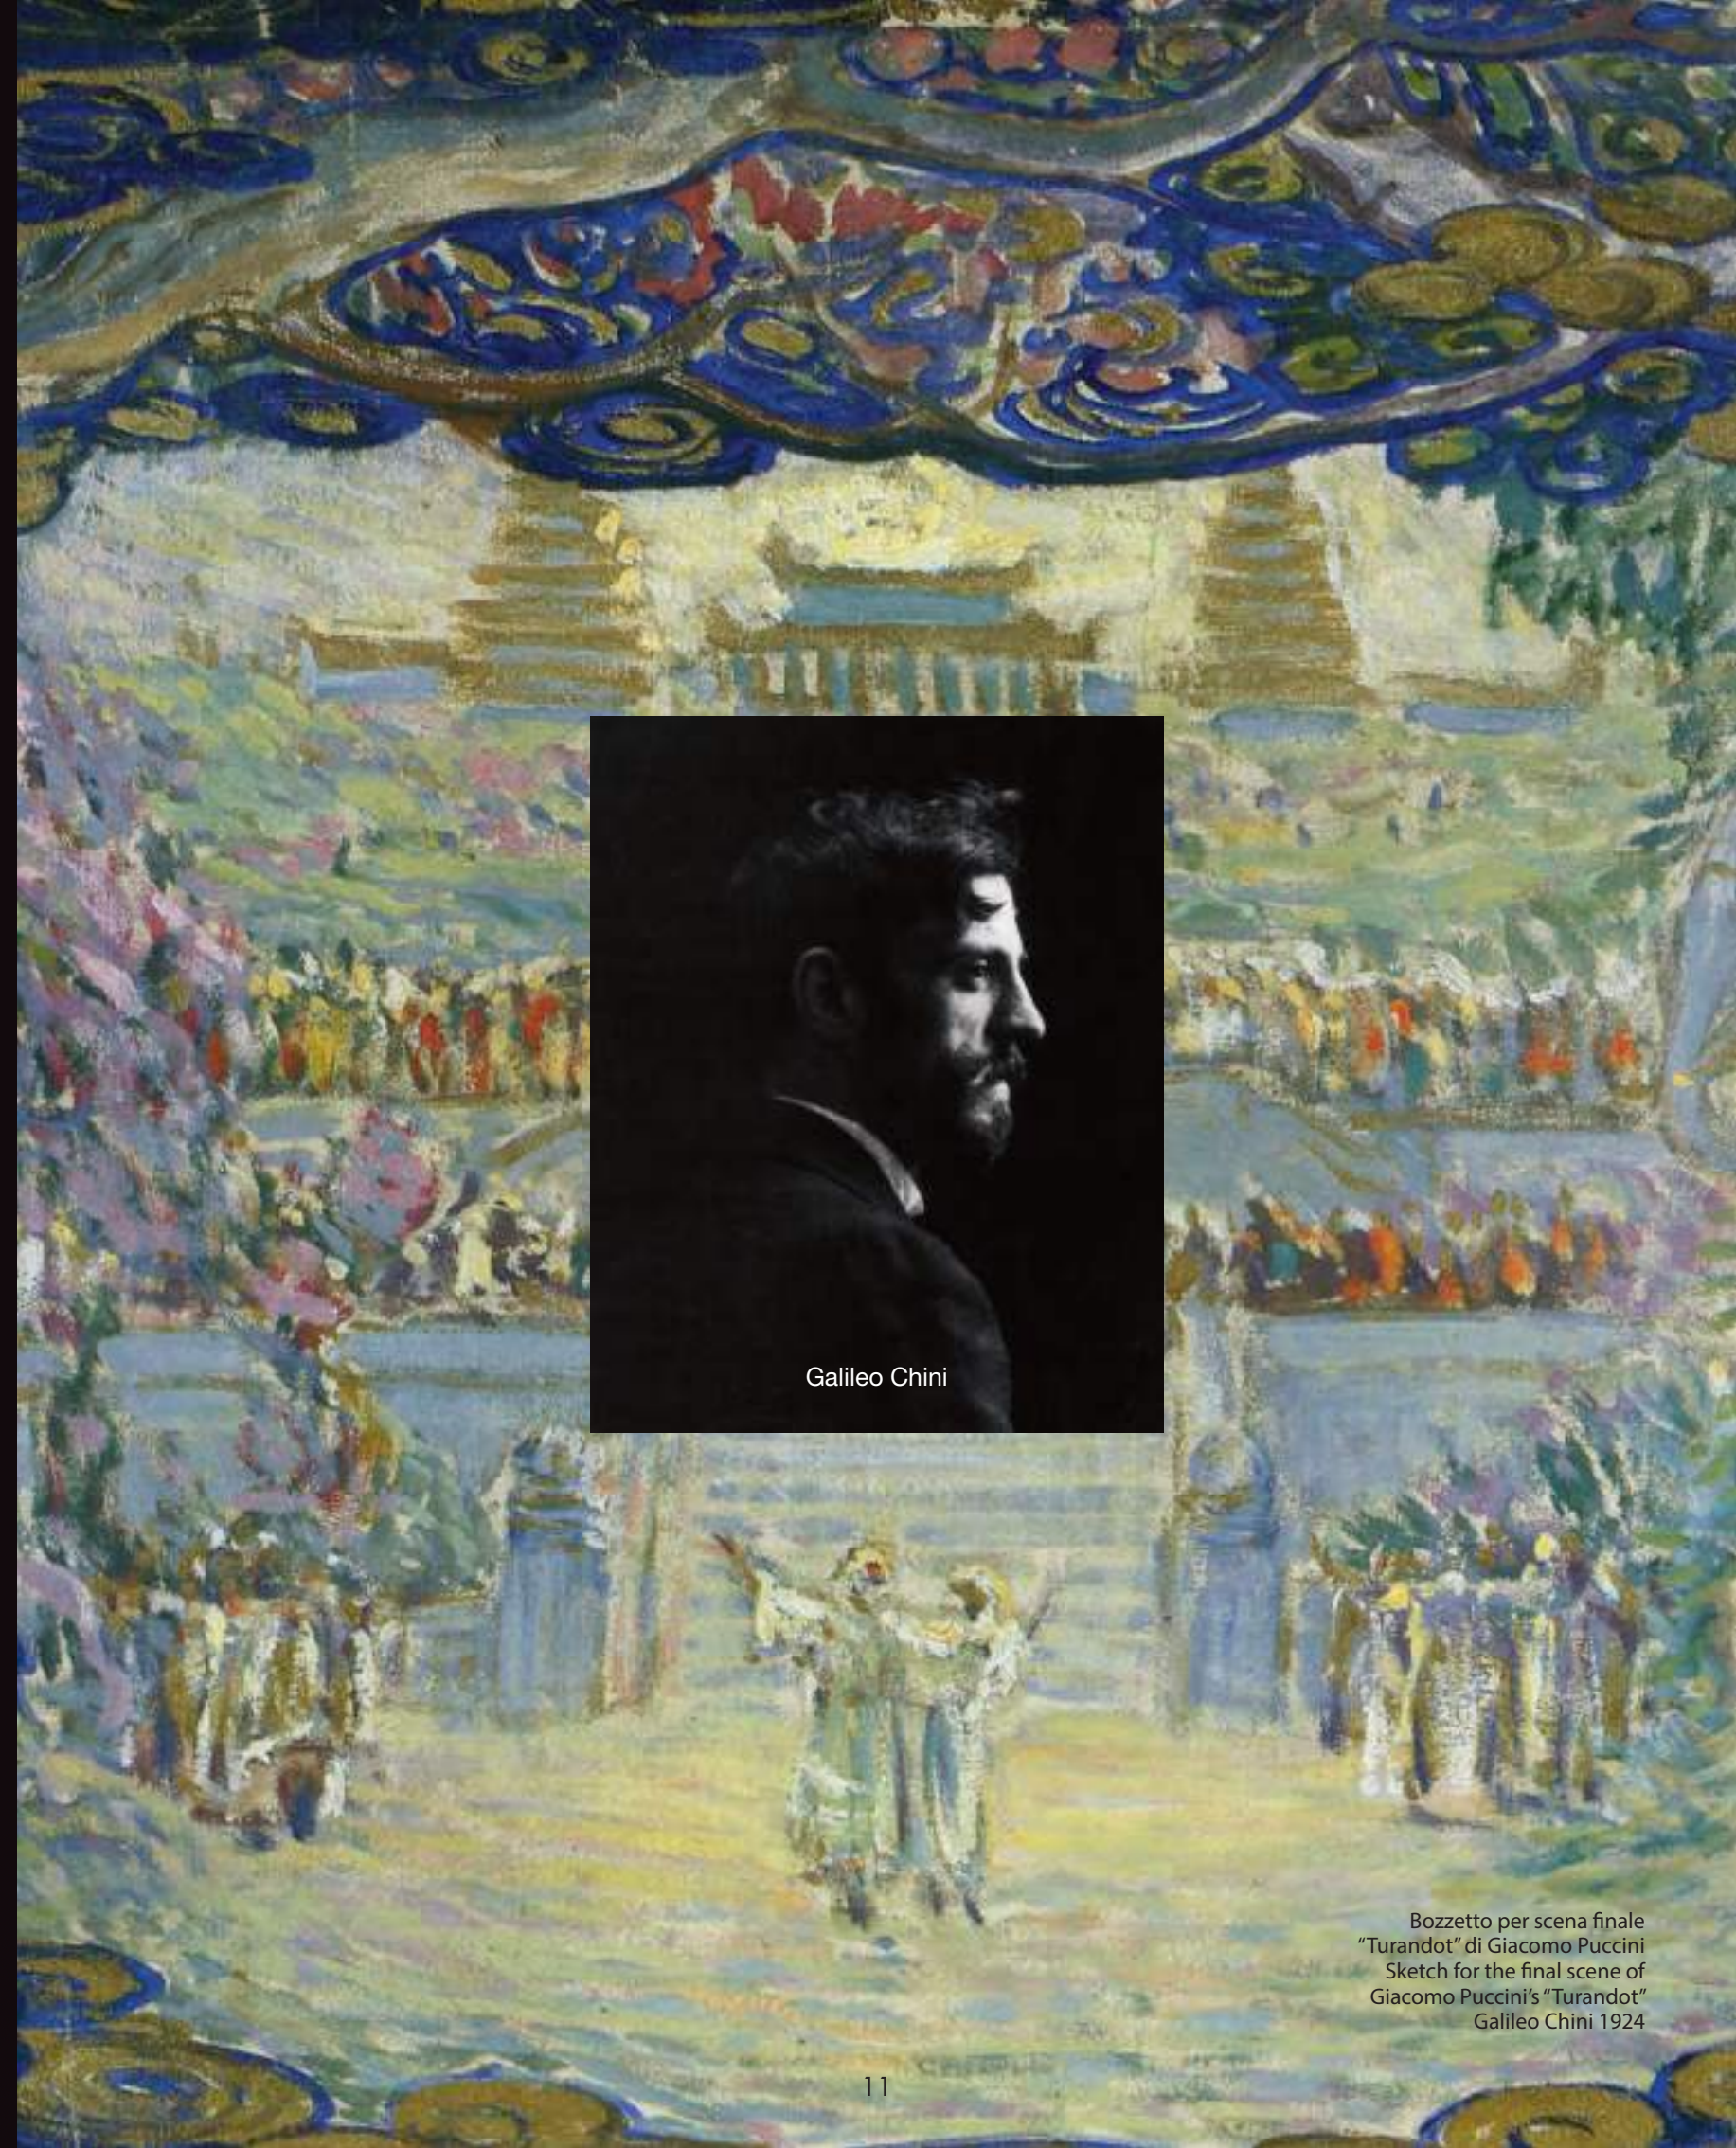

Da sinistra: Mattia Chini, Vieri Chini, Cosimo Chini

E' difficile, se non impossibile, ritrovare nella storia dell'arte italiana una figura così eclettica e poliedrica come Galileo Chini. L'irrefrenabile personalità artistica l'ha portato ad occuparsi di un'infinità di espressioni: è stato decoratore, illustratore, scenografo, urbanista, pittore e, soprattutto, sublime ceramista. Vissuto a cavallo tra due secoli (nato nel 1873 e scomparso nel 1956) ha introdotto l'Art Nouveau in Italia, ha partecipato a tutte le principali Esposizioni Internazionali del suo tempo, ha decorato edifici pubblici e privati, ha lavorato alla decorazione del palazzo del trono di Bangkok per il re Rama V, ha insegnato all'Accademia di Firenze, ad allievi della levatura di Ottone Rosai, Primo Conti e Marino Marini. Ma la sua personalità artistica non gli ha impedito di essere anche imprenditore, assieme al cugino Chino, con la fondazione della manifattura "L'arte della Ceramica" e poi delle "Fornaci di San Lorenzo", perché è stato sempre un cultore dell'unione tra arte e manualità artigiana. E' di questa unicità che ci sentiamo eredi e custodi. E' di questo tesoro che ci sentiamo ricchi.

ECCELLENZA ARTISTICA

It is difficult, if not impossible, to find as eclectic and versatile a figure as Galileo Chini in Italian history of art. His irrepressible artistic personality led him to work in a multitude of expressions: as a decorator, illustrator, designer, town planner, painter and, above all, as a sublime potter. A major figure of the fin de siècle (1873-1956), he introduced Art Nouveau to Italy, participating in all the major International Exhibitions of his time and decorating public and private buildings alike. He worked on the décor of the Dusit Palace in Bangkok for King Rama V and taught at the Accademia in Florence, his students there including such luminaries as Ottone Rosai, Primo Conti and Marino Marini. However, his artistic personality did not impede his entrepreneurial spirit. Together with his cousin Chino, he founded the "L'Arte della Ceramica" (Art of Ceramics) manufactory, and later the "Fornaci (Kilns) di San Lorenzo", his aim always to unite art and craftsmanship. In turn, we are the heirs and custodians of this uniqueness. This is the treasure that enriches us.

C'è un filo diretto che congiunge
l'azienda di oggi e la stella dell'arte che le
ha dato origine. E' un filo di uomini,
figli e fratelli, nipoti e bisnipoti,
che con alterne vicende hanno mantenuto
accesa la fiamma di allora.
La fiamma che ancora cuoce le nostre
produzioni e che ancora anima
le nostre creazioni.

IL CALORE DI UNA PASSIONE

A direct line links today's company
and its founding leading light.
A line of men, sons and brothers,
grandchildren and great-grandchildren,
who, despite vicissitudes, have kept
the flame burning to this day.
This flame continues to nourish our
production and still inspires our creations.

Sono due volte preziose le proposte
in ceramica firmate Pecchioli.
Preziosa è la materia, antica
e raffinata, nobile ed elegante.
Preziosi sono le colorazioni
e i decori, che offrono una scelta
infinita di combinazioni e stili.

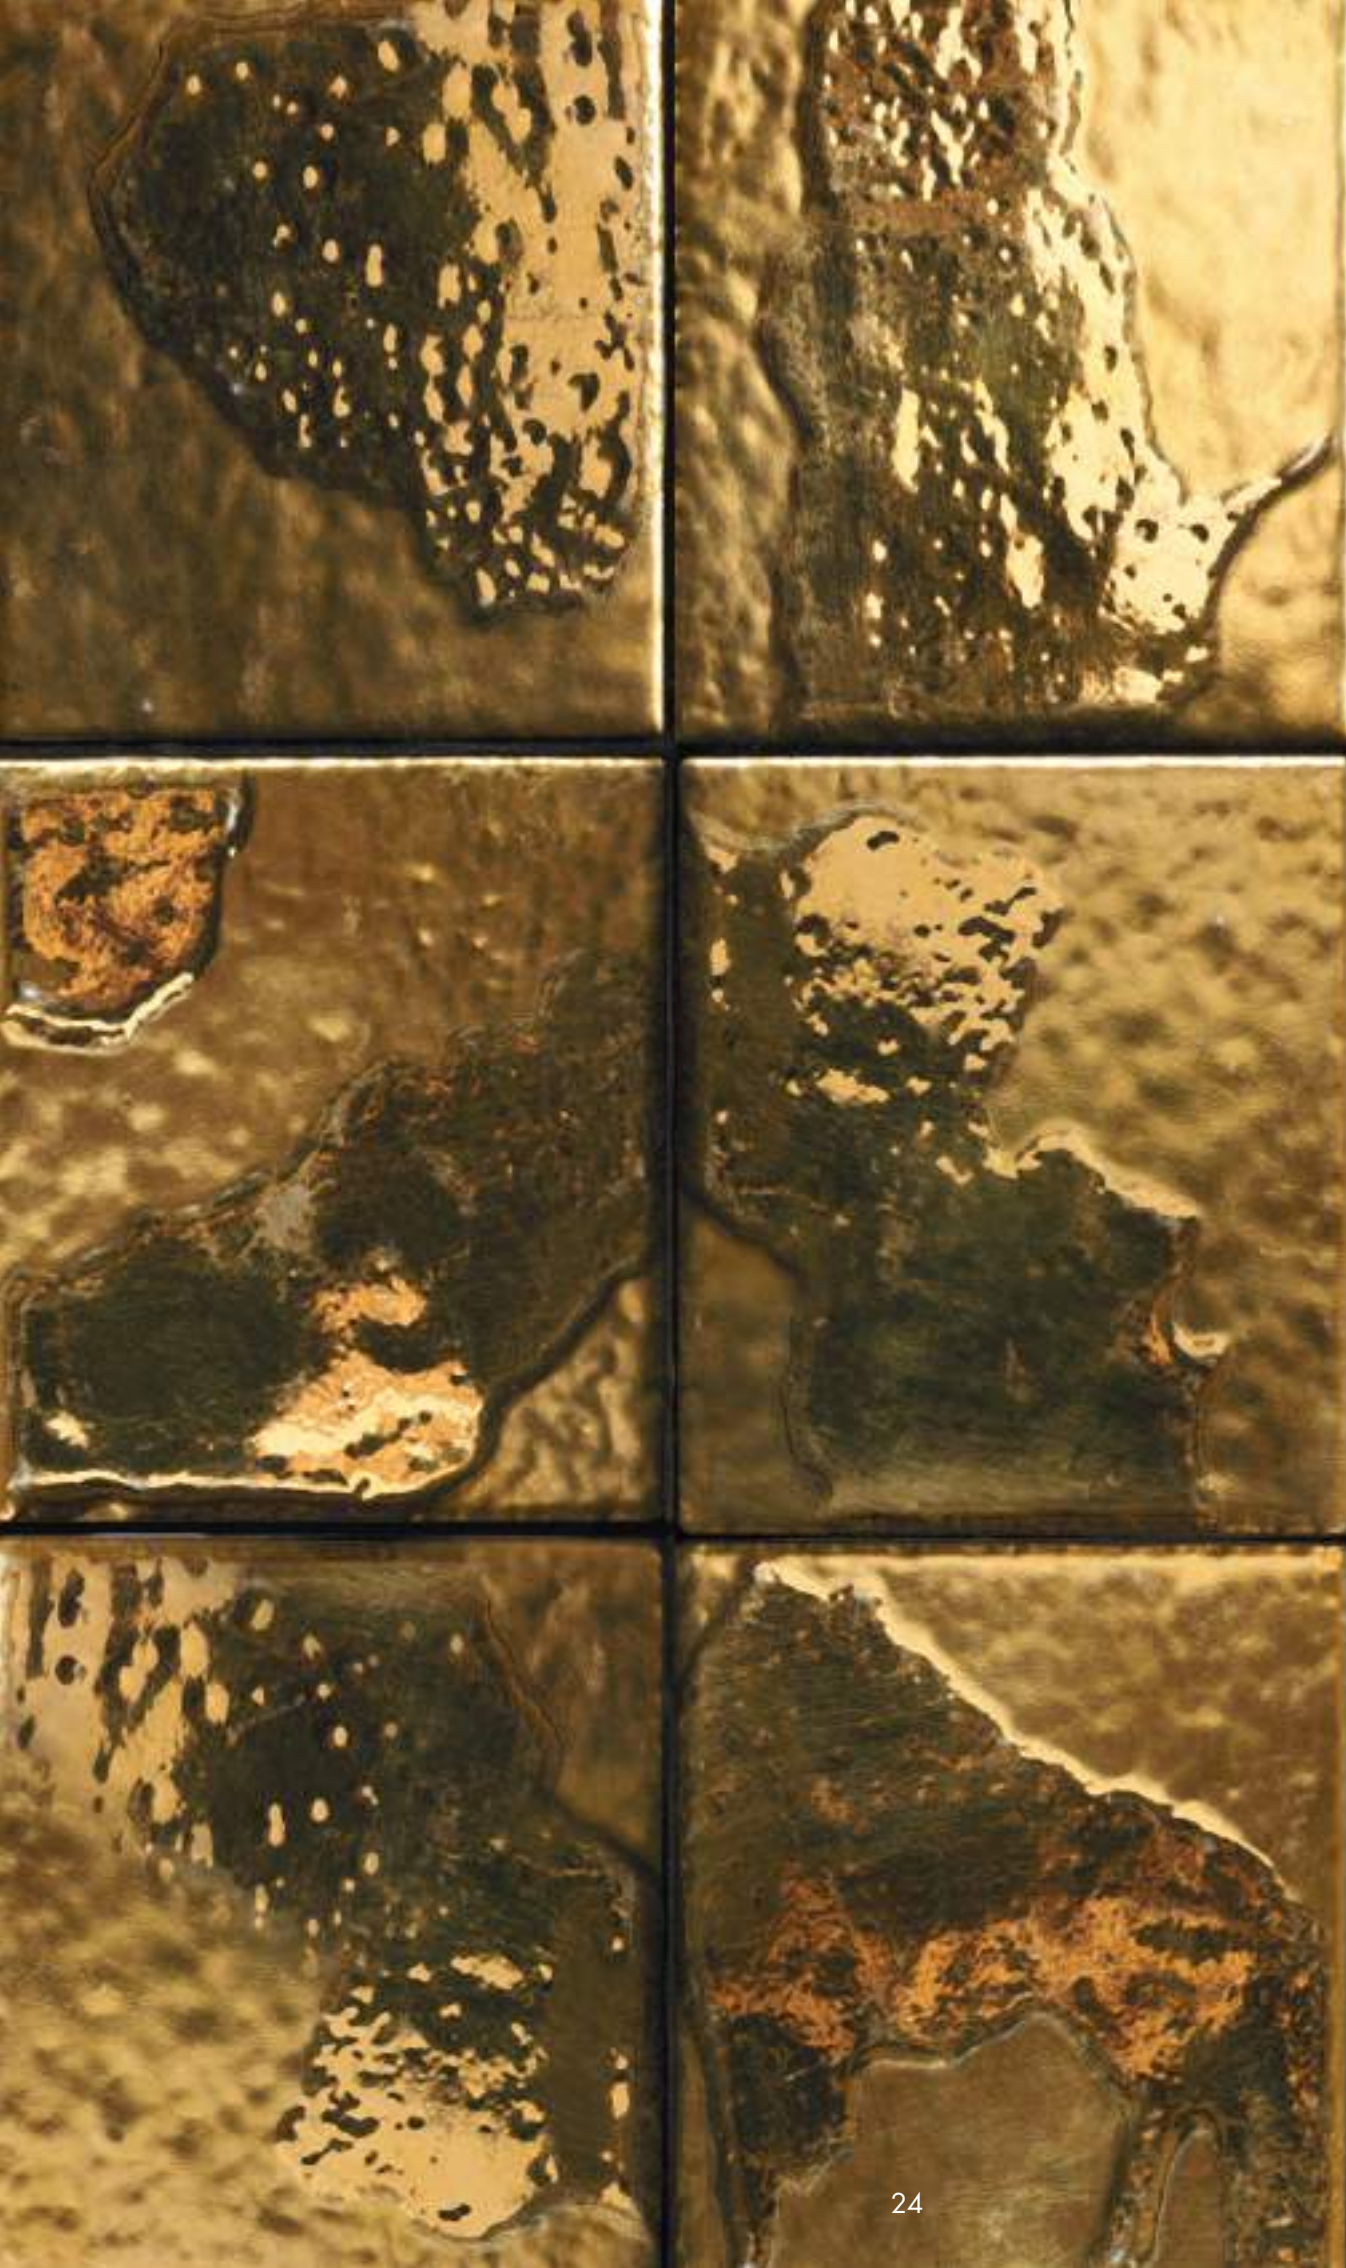

CERAMICA DEI CHINI

The preciousness of Pecchioli
ceramics is two-fold:
One, in the material, ancient and
refined, noble and elegant.
Two, in the colours and decorations,
offering an infinite choice of
combinations and styles.

A volte, c'è chi sente il bisogno di liberarsi dell'uniformità per cercare soluzioni dalla personalità forte e irripetibile, fortemente distintiva. A loro, Pecchioli dedica progetti speciali sotto ogni punto di vista.

PROGETTI SPECIALI

The need is occasionally felt to break free from convention, to seek solutions with a strong, singular, highly distinctive personality. This need is met by Pecchioli through projects that are bespoke in every aspect.

DECORATO ORO CHIMICO
60X60 CM

E' nell'ambiente bagno che
le terrecotte, in ogni loro espressione,
trovano il massimo livello di impiego,
funzionale e decorativo.
Le proposte firmate Pecchioli
sono lontane dall'ordinarietà
e vicine all'inedito.

ARREDO IN BAGNO

Expressed in every possible way,
terracotta reaches its apex of
utilisation, function and décor
in the bathroom.
Pecchioli offerings create
a distance from the mundane,
approaching the unprecedented.

TOTAL LOOK

Forme, colori e dimensioni

Ogni colore, ogni accessorio, ogni sfumatura, ogni forma o struttura, trovano nella gamma Pecchioli tutte le articolazioni possibili, perché non ci siano limiti alla creatività, perché sia totale la libertà compositiva.

Every colour, every accessory, every nuance, every form or structure is developed by Pecchioli in every possible manner. There can be no limits to creativity; freedom of composition is absolute.

Pecchioli Firenze si riserva di apportare, senza preavviso, modifiche nei materiali, nelle finiture e nei disegni dei prodotti presentati in questo catalogo. Le tonalità e le texture, hanno valore indicativo in quanto i nostri prodotti sono fatti a mano, e soggetti a variazioni che ne attestano l’unicità. I colori delle finiture sono soggetti alle tolleranze dei processi di stampa.

Pecchioli Firenze reserves the right to make changes to the materials, finishes and designs of the products presented in this catalogue, without notice. Tones and textures are shown for indicative purposes only. All our products are handmade, and are therefore subject to variations that attest to their uniqueness. Colours of finishes are subject to the tolerances of the printing process.
